

Group-IB

DIGITAL RISK PROTECTION

AI-driven digital risk identification and mitigation platform

Comprehensive management of external digital risk landscape

Safe customer experience through brand's digital touchpoints

85% takedown rate due to three-stage response approach

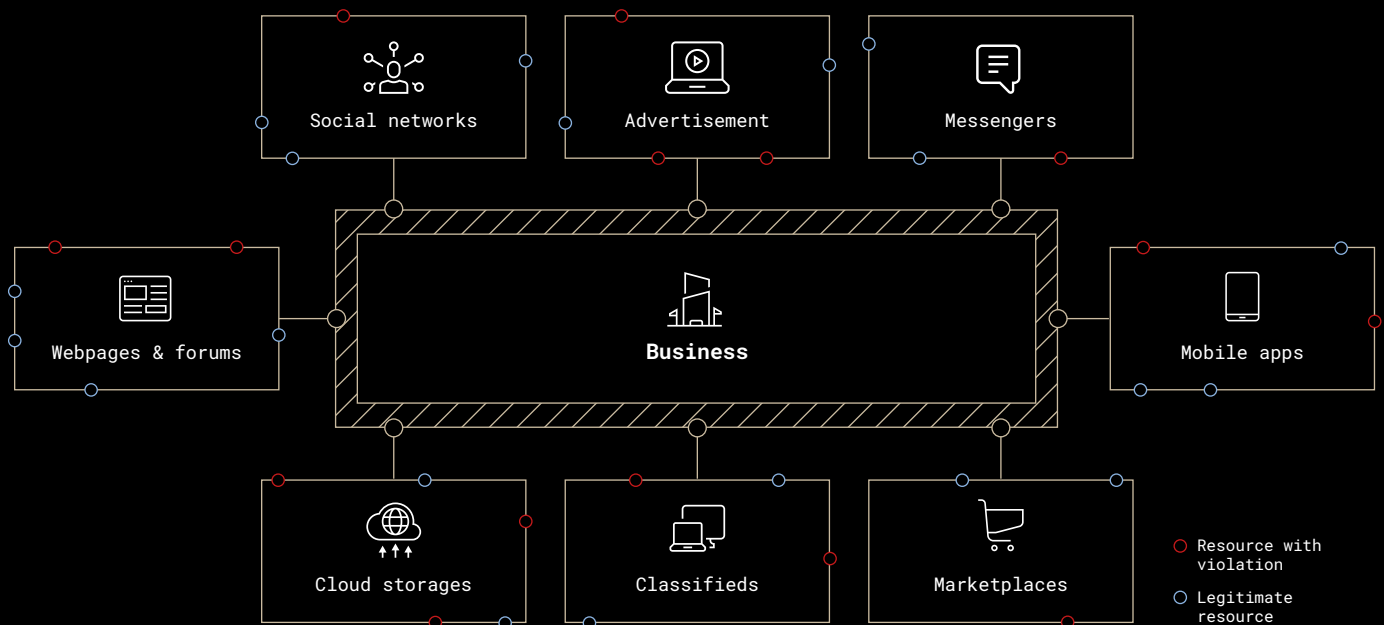

- **Artificial intelligence that manages your risk exposure**

The Digital Risk Protection platform leverages advanced technologies to detect the illegitimate use of logos, trademarks, content, and design layouts across the digital surface.

- Identifies illegitimate asset use
- Classifies and scores the detected violations
- Prioritizes and initiates appropriate takedown tactic

Automatic identification of violations beyond your network perimeter

Machine learning that detects violations at earliest stages

Identifies fraud and scam before the traffic attraction stage

Continuously enriches detection algorithms across industries

Utilizes Graph module to map and takedown entire fraud networks

- **Safe digital customer experience**

Minimizes risk of customers being scammed

Safeguards brand's reputation

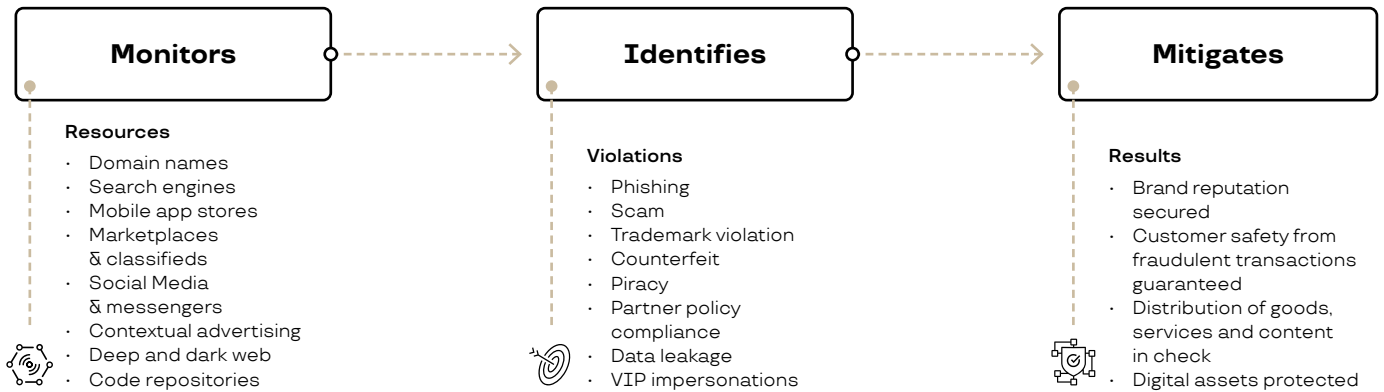

Protects marketing content from being used by fraudsters

How Group-IB Digital Risk Protection works

ANTI-SCAM | ANTI-COUNTERFEIT | ANTI-PIRACY | LEAKS DETECTION | VIP PROTECTION

MAPS DIGITAL FOOTPRINT

Configuring identification rules of illegitimate digital asset use

Comprehensive takedown in three stages

1	Notification Stage	2	Enforcement Stage	3	Cease-and-Desist Stage
	Identify resource owner and request removal of detected violation		Utilize the partnership network to enforce violation removal		Obtain official pre-trial order to take down detected violation

Partnership network to guarantee best takedown success rate

- 2020 Innovation Excellence Award in the the European Digital Risk Protection market by Frost & Sullivan
- CERT-GIB is an Accredited Member of FIRST and Trusted Introducer international associations
- Recommended by the Organization for Security and Co-operation in Europe (OSCE)
- Official partner of INTERPOL and EUROPOL
- Moderator Accounts on major platforms
- Google's Trusted Copyright Removal Program member

Why choose us

20,000+

violations eliminated daily

85%

of detections mitigated pre-trial

60+

member team of technical and legal experts

350+

brands protected globally

Group-IB is a leading provider of advanced Threat Intelligence & Attribution, best-in-class anti-APT and anti-fraud solutions.

Group-IB is ranked among the best threat intelligence vendors in the world by Gartner, IDC, Forrester, Cyber Defense Magazine and SC Media.

We have provided professional development training to Europol, INTERPOL, law enforcement agencies and corporate security teams on four continents.

Official partners

17 years

of hands-on experience

65,000+

hours of incident response

1,200+

cybercrime investigations worldwide

500+
