

Stockholm, October 26, 2021

Dear Mr. Volkov,

We want to extend our sincerest gratitude to Group-IB's professional security assessment and team for the services it provided.

As a provider of financial technology solutions that serves customers all over the world. It is therefore vital that we ensure that our security remains uncompromised.

We chose Group-IB because of recommendations we received from peers in the industry, who noted the company's multi-faceted approach to security assessments. The Group-IB team gave a thorough evaluation of CMA's perimeter, both from the outside and inside, and checked our security strategy's compliance with international best practices.

With the recommendations and training provided by the Group-IB team, we were able to optimize CMA's internal policies and make our infrastructure even stronger.

We are confident that we will be cooperating with Group-IB in the future and wish the company nothing but the best as it continues its mission to battle cybercrime.

Sincerely,

Alexey Nazarov
Managing Director
